

UNIVERSITA' DEGLI STUDI GUGLIELMO MARCONI

IN COLLABORATION WITH

ENERTECNA

2nd Road Show

19 May 2015

Università La Sapienza, Rome, Italy

The Second Road Show was arranged at Università La Sapienza, Rome, at Civil and Industrial Engineering faculty <http://www.ing.uniroma1.it/drupal/>.

The goal of the Road Show was to present the project and the Challenge Academy platform with the aim of encouraging university students and professors to register to the platform. About 50 students attended the UC-Crowd and Challenge Academy platform presentations.

Prof. Enrico Bocci (USGM professor) and Mr Mauro Villarini (ENERTECNA) presented the Road Show.

Prof. Enrico Bocci outlined the project main information, European partners and context, project objectives and phases. He also explained the concept of crowdsourcing and how the project applied it.

In particular, it was showed the platform, its main functionalities, different profiles (seekers and solvers) role and functions within the platform, challenge page and possible awards. The attention was focused on the "student profile". In fact Prof Enrico Bocci simulated the student profile creation and the submission of a challenge, the creation of a team, the submission of the answer to the challenge.

Here below some screenshots of the "students profile" presentation:
