

## REPORT

*[This report should be made to report activities related with the project namely: meetings, workpackages reports, quality report and other activities.]*

*partner in charge Artesis Plantijn Hogeschool Antwerpen*

---

*date 27/05/2015*

---

*location Eneco Mechelen (Belgium)*

---

*participants\* Eneco (3 participants) – AP (1 participant)*

---

*type of report Evaluation Report Roadshow Netherlands*

---

*\*In attachement the registration signature*

### 1. Goal of the Roadshow

*The goal of the roadshow was to introduce the UC Crowd platform in Belgium and The Netherlands. The company Eneco (situated in Belgium) gave a positive answer upon our request to get an introduction with our platform.*

### 2. Meeting

*After the presentation of the platform (this was done in the same way like we did the workshop) Eneco Netherland was introduced via the website with the benefits of the platform. We agreed that one user of the company would keep in contact with our platform.*

### 3. Follow-up

*At the end of the meeting – just as during the workshop – we asked Eneco to complete later the registration on the website [challengeacademy.eu](http://challengeacademy.eu).*

4. Pictures of the visits to Eneco Belgium

The picture below is Mrs Sarah Toye-Casteels who will be responsible for the follow-up of our platform (Eneco Netherlands).

## REPORT

### 1. Goal of the Roadshow

*The goal of the roadshow was to introduce the UC Crowd platform in Belgium and The Netherlands. The company Eneco (situated in the Netherlands) was the only company invited to get an introduction with our platform. All other companies from the Netherlands didn't give a positive answer upon our request.*

### 2. Meeting

*After the presentation of the platform (this was done in the same way like we did the workshop) Eneco Netherland was introduced via the website with the benefits of the platform. We agreed that one user of the company would keep in contact with our platform.*

### 3. Follow-up

*At the end of the meeting – just as during the workshop – we asked Eneco to complete later the registration on the website [challengeacademy.eu](http://challengeacademy.eu).*

4. Pictures of the visits to Eneco Netherlands

The picture below is Mr Bakker who will be responsible for the follow-up of our platform (Eneco Netherlands).
